RE: Public Records Request for Water Pollution Control Facility Recent Reports #2

Dear Mayor Franklin:

The County has been provided an electronic copy of the April 28, 2018 AECOM Alternatives Report, but some portions of the report are still missing. Please provide the following:

- Appendix B – Flow Monitoring Report, August 11, 2017, AECOM Project No. 60526190
  - Appendix A “Flow Meter and Rain Gauge Installation Information
  - Appendix B “Flow Meter Service Area Maps
  - Appendix C “Dry Weather Flow Graphs”
  - Appendix D “Storm Events During Flow Monitoring Period
  - Appendix E “Wet Weather Flow Graphs”
  - Appendix F “Linear Regression for I/I Analysis
  - Appendix G “2015 Downtown Sewer Study”
  
- Raw Data from Flow Meters 25A, 27, 37, 3B, 3A, 28, and 11.

Considering these documents were prepared by outside consultants and electronically submitted to the City, we request a prompt response to this request. Also, we’d like to remind you that pursuant to Administrative Order No. 2008-02, Section 2.4, “All requests for public records must either be satisfied or be acknowledged in writing by the City within three (3) business days following the City’s receipt of the request.”

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Thomas A. Angelo".
